ROWE Project Wins Asphalt Pavement Association of Michigan Award

Flint, Michigan, Nov. 19, 2010 – A project designed by ROWE Professional Services Company won an award of excellence from the Asphalt Pavement Association of Michigan-Michigan Department of Transportation (APAM-MDOT). The reconstruction of Saginaw Street in the City of Lapeer, completed in 2010, was the winner of the 2,500-20,000 ton category.

The project won the award based on several factors, including the degree of difficulty to complete the work, and the completed street's exceptional appearance and smooth ride. ROWE provided design and construction engineering for approximately 1,700 linear feet of the street reconstruction. Cadillac Asphalt, LLC of Clarkston completed the paving portion of the work while DiPonio Contracting, Inc. of Shelby Township was the general contractor for the project.

The award will be presented to ROWE, Cadillac Asphalt, and the City of Lapeer at APAM's holiday banquet on Dec. 9 in East Lansing.

APAM is a non-profit organization of approximately 150 members representing the hot mix asphalt industry in Michigan.

ROWE's headquarters is in Flint, Michigan; additional offices are located in Lapeer, Mt. Pleasant, Grayling, and the tri-cities area in Michigan, and Myrtle Beach, SC.

ROWE Professional Services Company is a full-service professional consulting firm specializing in civil engineering, surveying, aerial photography/mapping, landscape architecture, planning, and land development services.
